ROSSES GET INVITATION

TO PRINCESS' WEDDING

An Invitation to attend the May 6 wedding of Princes Margaret and Antony Armstrong-Jones at Westminster Abbey arrived at Victoria's Government House this morn

His Honor Frank MacKenzie Ross, Lieutenant-Gover-nor of British Columbia, and Mrs. Ross will leave April 23 to attend the wedding.

Mrs. Ross told the Times that the much-cherished invitation was "very beautiful."

Invitations totalling 2,047 were mailed out to leading world figures from London this week.

Mr. and Mrs. Ross were hosts to Princess Margaret during her centennial visit in July. 1958. B.C.'s vice-regal representatives were generally conceded to have put on a brilliant reception for the Princess, which resulted in a fast friendship.

They will be accompanied by Miss Ruth McLean, Mrs.

APPLE DESSERTS

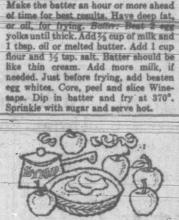

B.C. Winesaps are the apples to buy in the spring when they are tart, crisp and wonderful. Raw or cooked, these sunny, fresh-tasting apples have a flavour all their own, add so much to mealtime enjoyment. You can serve them in many appetizing ways - and be sure of winning compliments. Buy B.C. Winesaps — now in good supply at your favourite grocer's.

AN IMPORTANT B.C. INDUSTRY

The apple growers of British Columbia are independent business men striving to produce the finest fruit at the lowest possible prices. The fruit growers contribute \$13,500,000 a year to the economy of our province but their importance cannot be measured in dollars alone. Fruit growing is a vital part of our agricultural industry and B.C. apples are among the best in the world.

Make the batter an hour or more ahead

Spring Compôte

Make a syrup of equal parts of sugar and water. Peel and cut Winesaps in eighths. Apples should not be crowded to cook. Simmer a few at a time. Remove to serving dish and continue cooking until all the apple pieces are tender but not mushy. Pour any remaining syrup over apples. Serve cold with whipped cream or custard.

Prepare a vanilla syrup (equal parts of sugar and water, flavoured with vanilla or you can use a commercial syrup and thin with a little water). Cook syrup a few minutes. Core and peel some Wine-sap apples. Parboil two minutes in water to which you add a few slices of lemon. Remove lemon and place apples in baking dish with vanilla syrup. Bake covered until tender but not at all mushy. Now fill apples with a mixture of icing sugar and B.C. butter (the French add a dash of brandy). Bake uncovered till butter mixture bubbles over sides of Winesaps. Serve hot.

Deeper in the Morass

RENEWED OUTBREAKS BY natives in South Africa, and renewed police vide ce in suppressing them, indicate that the basic situation is worsening. The protest of the Negroes against injustice and discrimination is fundamental, and only a fundamental change in the Government attitude will answer it. This is no mere seasonal unrest or mass whimsy; it is an expression of the deepest longing, the most urgent demand of 10 million human beings

for their rights.

The South African Government nas reacted with gunfire and repression. This, of course, can only in-cite further anger at home and criticism abroad.

The rioting and retaliatory ughter have stirred some protests in South Africa. from liberals in South Africa. They are urging a solution through contact and conciliation, but the Government shows no signs of adopting such a course. It is committed to violence and further vio-lence until the Negro protest is stamped out or explodes in a major

To Commonwealth members it has suddenly become apparent that there is a police state in their midst: habeas corpus has in effect been suspended; the dawn arrest, the armored car in the street, the mass herding of men, women and chil-dren—these are the evidence.

From some parts of the Cor monwealth have come protests. India has been outspoken; some of the new African countries more so. Britain, through Mr. Macmillan and Foreign Secretary Selwyn-Lloyd, has made it plain that the policy of

apartheid is wrong and unworkable. Canada's stand has been less forthright. This country voted for most of the resolution in the United Nations last fall condemning the principle of apartheid, but abstained from linking South Africa with the denunciation.

Mr. Green has since explained that he did not want to take a stand that might cause South Africa to withdraw from the Common-wealth. Mr. Pearson has agreed that such a withdrawal would be unfortunate, but points out that some four-fifths of the Commonwealth's population is colored, and he plores any policy that might finally drive these people out.

The U.N. Security Council last week condemned South Africa's po-lice action and political restrictions, with Britain abstaining. Canada is not a member of the Council and was not required to take a stand, but Mr. Diefenbaker says he is not prepared to discuss South Africa although reiterating his oposition to racial discrimination. The Prime Minister rightly is loath to disturb Commonwealth relationships, but it is doubtful if his reticence in criti-cizing South Africa adequately re-flects the sentiments of Canadians.

They are more likely to support the United Nations rebuke, which is based on the threat to world peace created by the anger of many millions of human beings all over the to explain to his fellow Americans why clone South Africa subscribed to globe. The Road From Wisconsin

SENATOR JOHN F. KENNEDY'S victory in the Wisconsin primary election will help his campaign for the Democratic nomination, but does not assure it.

He had hoped to sweep the Wisconsin polls, destroy his rival, Senator Hubert Humphrey, and prove that he is an unequalled voteetter. Instead, he won by a pretty narrow majority. The only surprise in the election was the strength of Senator Humphrey, who probably anticipated a worse defeat.

eated prime tem, varying in every state which enforces it, directs delegates to vote for certain nominees in the conventions of the two great political parties. Apparently Senator Kennedy will have the support of 20 Wisconsin delegates, and Senator Humphrey 10.

But delegates were not the main objectives of the strenuous Wis-consin struggle. Senator Kennedy's purpose was to prove that, despite the historic obstacle of his Roman Catholic religion, he could be a winner in next autumn's presidential election. For him Wisconsin was a popularity contest.

He has won it and demonstrated that in this state, as in New Hampshire a few weeks ago, a majority of Democratic voters feel no religious prejudice against him. Another test, the West Virginia

primary, lles just ahead, and still-others will follow.

Primary elections do not necessarily determine presidential nominations. Mr. Stevenson, for example, did not enter any primaries in 1952 and Senator Lyndon Johnson, a powerful contender for the Demo-

A Big Job To Be Done

TODAY IS WORLD HEALTH Day, held annually on this date. The theme this year is the challenge to eradicate malaria, and some of the facts regarding this scourge will shock Canadians for whom the disease is only a word.

Malaria today is a constant threat to more than a billion human beings. It can depopulate whole territories — and has done so in many parts of the world. It strikes most cruelly, and fatally, at young children. It can debilitate whole populations, where it does not kill, and rob them of the will to live.

Under the auspices of the World Health Organization, malaria today is being fought in 92 countries and territories. This constitutes the greatest co-ordinated public health program ever undertaken in the world's history. The action is on two fronts: to counteract the mosquitoes which carry the malaria parasite, and to eradicate the illness in many thousands of humans.

Where progress has been made, thousands of acres of fertile land

have been won from the mosquito curse and returned to man's use. In South Africa the constitution has But much remains to be done. Fifty million Indians fall victim to the disease each year. Yet experts calculate that malaria could experts calculate that malaria could be wiped out by a \$190-million program extending over several years.

In the Philippines, whole areas have been opened up since malaria was routed. A \$20-million, five-year program in Mexico will end a -million annual loss. Similar

statistics apply elsewhere. Obviously this is a task for all nations, not only for those afflicted. The World Health Organization does not call for individual contributions. But it seeks to establish a helpful public opinion in all countries, so that governments will bear their share of the common duty. Let Canadians, fortunate in their

HE is wrong, in the first place, when he says that this debt must necessarily increase Canada's production and usable wealth. So it would, of course, it It were all invested in profitable, produc-tive enterprises capable of paying interest and repaying principal to the lenders out of its earnings.

In fact, much of it, such as provincial and municipal borrowings, is not invested in business at all but in social capital of various sorts. The taxpayers must carry its costs out of their income

from truly productive enterprise.

Besides, a great part of our recent foreign borrowings was used neither forproductive nor for social investment but only to pay the interest on old debts or to buy goods for immediate consump-

might also point out that the total burden of debt and interest payments and of potential dividend payments is en-tirely within the means of the highly productive Canadian economy which this capital has built and is building . . ."

HOW does Mr. Armstrong know that?
Mr. Coyne, an expert who understands the Canadian economy at least as well as Mr. Armstrong and obviously much better than Mr. Churchill, does not believe that our present scale of foreign borrowing is within our current means. The whole point of his public statements is that borrowing on such a scale is beyond our means.

How could it be otherwise when we must borrow to pay part of the cost of the debt already contracted and part also of our daily grocery bill?

Would Mr. Armstrong say that a man who borrows to pay part of the mortgage interest on his house and to buy his food is living within his means? That is Can-ada's present situation.

SUPPOSE for the sake of argument that Mr. Armstrong is right and Mr. Coyne wrong at the moment, that the present load of debt can be tolerably borne out of Canadian production and borrowing combined. There, too, Mr. Armstrong misses the point. For Mr. Coyne is not mainly worried about con-

set of conditions tomorrow.

The flow of American money into Canada, on its present scale, is not a guaranteed process of perpetual motion. Its volume, as Mr. Armstrong says, is not controlled by anyone in particular but fluctuates according to the decisions of annumerable anonymous. American in-vestors. They would not have to reduce that volume very much, without an hour's notice, to create profound effects

Of course not. As Mr. Armstrong says, the impersonal, nameless American investor will decide from day to day how much money he cares to place here. a powerful contender for the Democratic nomination, is not entering any now.

Senator Kennedy's strategy is quite clear. He hopes to reach the Los Angeles convention with the nomination in his pocket, enough delegates already committed in his favor.

Much of the opposition, as it issues from the Atomic Energy Commission and the Pentagon, is based on the assumption that if we resume the race in the development of nuclear weapons, the United States will surely be the winner of the race. But have we the right to make this optimistic assumption.

THERE is a saying that to govern is to choose, and when we discuss the explosion in 1945 until the summer of President's decision on nuclear testing.

We must be sure not to do all the testing it wanted to do. But so, too, were the Russians to do their testing.

In the course of those 13 years of an open race, the Soviet Union caught up with the United States and became a first class nuclear power. Why, then, should we take it for granted that another 10 years of an open race see America the winner, way out in

The real question is whether the Russians, testing in secret, may continue the race while Americans have stopped. This is a theoretical possibility.

But how much of a probability is it? Not very much, it seems to me, because the rewards of secret testing

are not very great while the penalties of being caught are very great indeed. The Soviet dictator who ordered secret testing in violation of the mora-torium would be making a gamble at

African Negroes Losing Faith

By GEORGE W. CORNELL

NEW YORK (AP)-Billy Graham says that African Negroes until now have not been widely aware that racial segregation exists in American churches—but they're finding out, and it's dealing a hard blow to the Christian cause.

This is among the major conclusions that the globe-trotting evangelist drew from his 10-week African tour from which he returned last week.

Outlining his impressions in an integer view, he said the loes of Christianity are busy picturing it as a "white man's religion."

"This is Christianity's biggest simbling block in Africa," he said—and the damage, he added, is only beginning.

EMBARRASSING

1-lb. pkt.

"The embarrassing racial problem in America and Britain has not been such an obstacle among Africans until now because they were not so aware of it. But it's becoming increasingly a problem there.

"The segregated churches and church institutions in America can be a segregated to the control of the segregated churches and church institutions in America can be segregated."

institutions in America are becoming known to African leaders. They can't believe it. They can't take it in. They're astounded to hear that Christian instituions bar a man on the basis of color."

BILLY GRAHAM . . christianity hurt

who refuses to hold any meetings where segregation is required, said the African trip strengthened his conviction that Christianity must free itself of racial restrictions.

"Eventually the churches are going to have to drop it . , . Ninety per cent of all our churches are segregated."

WHITES OUTNUMBERED

If American churches are to render effective missionary help in Africa "they're going to have to rethink their own segregation policies . . , they've got to realize that 70 per cent of the world is colored."

In Africa he held meetings in 25 major cities and 75 villages in 12 countries across the continent, and "I did more and saw more than on any other tour."

"More and more Christian leadership is being turned over to the Africans them-selves. It's not missionary policy that counts any more, but African policy.

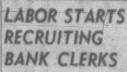

"Nearly all Anglican bishops there are Africans ... the Catholic church in naming an African cardinal made a wise move." As for the quality of Negro pastors and church leaders, Graham said: "They are terrific. They are men who would be leaders anywhere."

Little Cats Fire 'Big' Goal Again

Cougars Clip Canucks 4-2; Take 2-0 Lead In Final

LOS ANGELES—The little Cougars are still the big men in the Western Hockey League final.

Lightweight forwards of the Victoria club again provided the payoff punch Wednesday night as the Cougars edged Vancouver Canucks, 4-2, to grab a 2-0 lead in the best-of-nine series for the President's Cup. For the third straight game, it was the line of Doug Macauley, Doug Anderson and Arlo Goodwin which produced the winning goal as the Cats stretched their unbeaten play off streak to six games.

But to Do Best

AUGUSTA, Ga. (UPI)-Don't expect any miracles, Stan Leonard advised his Canadian compatriots today, although he promised to give it "all I've got" in an effort to win the Masters golf title which has eluded him the past

The 47-year-old, long-ball hitting Leonard had only one full round over the Augusta national course under his belt pefore he teed off along with 83 other competitors for the opening 18 holes today

"I've been down here four days," said the soft-spoken

veteran from Vancouver, "but what with the rain and all that. I've managed to get in only one full round. That was Wednesday and I shot a one-over-par 73." For the past two years now, Leonard has finished three strokes behind the leader. That was good enough for a fourth place tie both times. What hurt was the fact he was tied for the lead with Arnold Palmer at the co

of the third round last year, then tumbled as Art Wall, Jr., came on to win. "I don't want to build up my hopes for this one," he said, with that customary twinkle in his eyes. "Naturally, I hope I can win, but I have my doubts about it. My main hope is that I can play as well as I did the past few

Stan Not Complaining About Game

Leonard says he has been playing "reasonably well" this spring up to now, pointing out that most of his competition came on the Caribbean tour.

"I'm not exactly kicking about my game," he grinned, "although I honestly feel I'm not playing quite as well this year as I was last year at this time." The weatherman predicted winds up to 18 miles an hour advantage since he played brilliantly when the wind was at it's height during last year's tourney.

Like most of his fellow pros, Leonard likes Arnold

Palmer's changes "on what he has shown this winter."
Stan has one reservation however. "Palmer looks like the man." he repeated, "but I've got one of those deep-down hunches it may be (Sammy) Sn

Canada Leads In A-Power Development

NEW YORK (CP)-L S. Bate of Atomic Energy of Canada Limited said Tuesday land is being cleared for an atomic reactor station that is expected to produce power at a cost "close to being competitive" with coal-fired stations.

Bate, design co-ordinating engineer with the atomic authority, said the cost of the power would depend on how much of the engineering and development would be placed against this first station in the Canadian program it was Canadian program. It usual to spread such cost over several stations.

Bate, attending an interna-tional atomic exhibition at the New York Coliseum, said in an interview information on the program has been pub-lished from time to time since the federal government voted the necessary funds a year

Bate spoke at a press con-rence Monday in which U. M. Stachier of the United States Atomic Energy Commission said the U.S. experts to proouce economic nuclear power in high-cost areas by 1968. Ob-servers thus reasoned that Canada would have economic. atomic power three years ahead of the U.S.

Bate said today the assump, tion could be true because what is economic in one place is not economic in another. It depended to a large extenon the interest charges on fi-nancial outlay. The Canadian authority was able to get the lunds at 4½ per cent interest, a lesser rate than that prevail-ing in the U.S.

On Display

The gleam of chromium and sheen of fibergias fill Victoria Curling Club rink and an adjacent 8,000 square-foot tent for the second annual Vic-Van-Isle Kinsmen Club boat show, which will open at 6 tonight.

New this year are a turbojet ranghout, a compact inboard-

unabout, a compact inboard-utboard engine and drive for

runabouts and small cruisers, an outboard diesel, and a vivid salling catamaran which is scratching the tip of its mast

on the curiting rink root.

General impression is that all exhibits have added color since last year. There is an eye-catching red, white and many blue cruiser, a sallboat with a sail in the same color scheme, and a collection of red, green, white, black and blue hulls of all shapes and alloss.

Official opening of the show will be by Mayor Percy Scurrah at 7.30 p.m. Friday hours will be from 6 to 10.30 p.m., and Saturday from 1 to 10.30 p.m.

. . . HERE AND THERE . . .

With NORMAN CRIBBENS

It's fantastic and incredible but I have just received

legacy from someone I can't remember. A lawyer's letter from London, England, informed that a Miss F. R. M. France had died and left properly

and funds valued at about \$6,100.

This almost ended my life "here below" until I got down to the third paragraph which stated that Miss France had bequeathed a "considerable number" of legacies including one of \$25 for myself.

"However," the legal gentlemen warned, "after payments for debts, funeral and testamentary expenses have been paid, you may expect to receive something less than that amount."

I might have known!

One of our justy old-timers (a military man, of course) fairly snorted when I told him Premier Sennett had said Victorians didn't appreciate Beacon Hill Park as much as they should.

Smoothing down his bristling moustache, the veteran

I was appreciating Beacon Hill Park when Premier Bennett was nothing more than a rumor.

Those who remember Alee Templeton, the lively "unsighted" planist who played here a few years ago, will not be surprised to hear that he has produced a book There are literally hundreds of these boxes in his

spacious home at Greenwich, Connecticut, in addition to
T chiming clocks, doors which play tunes when opened
and a whisky decanter that sings "Don't Touch Me."

Templeton confides that when he met a friend in-

New York and asked him home he replied:

"Alec, I love your company but frankly I can't stand all those damn bells!"

Today I met a proud Victoria father who told me and his three sons have contributed a total of 101

years in military service.

William Walker of 923 Esquimalt Road served 32 years with the British Imperial and the Canadian armiesduring the First and Second World Wars.

His eldest son, Major Alee William Walker, now in Ottawa, has put in 32 years with the Canadian Army.

Another son, Capt. Donald Walker, also in Ottawa, has served 24 years, and a third, Staff Sergeant Bert Walker of the REME, has been in the army 13 years.

All three were educated in Esquimalt.

DEAR ABBY

This, Too, Shall Pass, Mom! By ABIGAIL VAN BUREN

DEAR ABBY: My teen-age daughter, goes steady with a high-school boy with green teeth. I really mean it.

It doesn't seem possible that in this day, and age an it-year-old boy could go around with such neglected teeth. I swear the inside of that boy's mouth hasn't felt a toothbrush in ten years. And I'm sure he hasn't seen a dentist in at least that long. It isn't a matter of finances either because this boy got a new car from his parents for his 18th birthday.

Every time he smiles (and he grins constantly) the green mold and cavities appear. What disturbs me is that my daughter isn't bothered about it in the least. When I asked her how she could stand to kiss him, she said, "Oh muuuu ther!" How in the world can you wake up a boy or his family?

IT'S SPRING-CLEANING TIME... a time to carry on the war against slow, sluggish drains. How? Just use GILLETT'S DRAIN CLEANER in every drain... once a week. And I specifically recommend Gillett's Drain Cleaner. for I know from experience that no liquid distinfectant can budge the muck that lodges in sink and bathtub drains. You lee, Gillett's Drain Cleaner has a special churning, boiling action ... GIEANIO of this germ-breeding mess that collects in clogged-up drains. All you do is put 2 tablespoons of Gillett's Drain Cleaner in every drain and instantly they're fast-running, clean and sanitary.

THEY GO TOGETHER like April and showers — or May and flowers ... just try it and you'll agree that as a spread BLUE BONNET MARGARINE certainly goes with bread. Or try crackers and Blue Bonnet, toost and Blue Bonnet ... everything tastes better with Blue Bonnet on it. Blue Bonnet has a summy sweet flavor because it's made from the finest in gredients ... pure vegetable oils and pasteurized akim milk, with Vitamins A and D added. You'll find Blue Bonnet is delicious on not vegetables and excellent for all your baking, too. Get Blue Bonnet today and enjoy it good laste in dozens of your favourite dishes and at every meal!

"WHERE HAVE ALL THE CRACKERS GONEY" That's an question to answer when the crackers are McCORMICK'S VERY THIN SALTINES. These new, thinner saltines are so crispy good, they just naturally do a disappearing act, so it's a good idea to keep a good supply on hand. No need to worry about their lasting freshness . , their flavour is protected by the Flavour Guard 'Inner Pack'. McCormick's Saltines are inner-wrapped in individual quarter-pound section that they always taste just right — never, never stale—too salty. Yes, McCormick's Saltines taste so much better ordinary crackers, yet they cost not a penny more!

"I JUST WANT TO TEMEZ YOU of the great benefit I have had from using a safe to package of TEMPLETON'S TRE Carles, the relief of a dull, wearisome back ache which had troubled me for some time. I was astonished to see how quickly and effectively TRC's gave me almost immediate relief from my suffering." This grateful letter from a lady in Saint John, New Brunswick, is just one of the many heartfelt testimonials to the effectiveness of T-R-C's in relieving the pain, not only of back-ache and lumbago, but also the long, drawn-out agony of arthritic, neuritic, scialte or rheumatic pain. If you are troubled yourself—or know of anyone who is—do try Templeton's T-R-C's.

OVER-SLEPT AGAIN? No matter, dear lady, for you can whip up bowls of piping hot RED RIVER CEREAL for your dear ones in the wink of an eye. Cooks in a few minutes—and it's oh! so good. You'll find everyone loves Red Biser's whole some blend of cracked wheat, rye and flax, with that tantalizing, mutty flavor. Red River provides extra energy values to youngsters and active workers—and guards regularity for older people. That's why I say, so confidently, that Red River is good for everyone . . young, old or middle-sged. Delicious Red River costs so little and gives you so much in flavor and nutrition!

United States astronomers are placing the first bets in a great guessing game of the universe:

Just how would intelligent life on other planets go about trying to contact us? Can we pick up and decode their sig hals?

The search is for signals that would come in pulses or some code, and be clearly distinguishable from all other events in the universe.

Wash'n Wear Sportswear in Weekend

Now you can buy it in Victoria

Mish 'n Wear "Meteor" Sportswear is being worn by these four men. Club Golfer, Sports Shirt, Walk Shirt, Side Tab Slacks . . . all made of McGregor's exclusive "Meteor" cotton fabric. These men are doing the everyday jobs around the house or cottage that you might do yourself—and they are getting themselves and their clothing dirty. Greasy dirt from a motor... fine penetrating dust brushed off screens... and all types of dirt in between-these McGregor clothes are really dirty.

It's exactly 60 minutes later. That's all the time it takes to wash and dry all the clothes you see the men wearingexcept, of course, for their shoes. The MULTI-SPEED WASHING ACTION of the Westinghouse Laundromat gets every item thoroughly clean. The Westinghouse Dryer, with exclusive DIRECT AIR FLOW dries all fabrics-even syntheticsquickly and safely. Clothes removed from a Westinghouse Dryer don't even need a warm iron-unless you're specially fussy! See both the Laundromat and the Dryer demonstrated at your Westinghouse Dealer's.

Stanley Cup Finals at 5.30; New York Night Club Tour at 10

By PHIL LEE, Times TV Editor

IN HER OWN RIGHT—Towards the end of last February I wrote in this column that Tammy Grimes appearing in "The Four of Us" with no lesser lights than Beatrice Lilie, Cyril Ritchard and Tony Randall

was the hit of the night, "the belle of the ball."

Last Sunday, therefore, for no other reason thanto reassess my original opinion, I chose "Hollywood
Sings" over Playhouse 80's "Alas, Babylon" in orderto watch her caper for an hour with Eddie Albert in
a review of musical hits from famous motion pictures.

When it was over I felt that the original estimation had been covered but only as far as it went. It is

tion had been correct but only as far as it went. It is evident now that Tammy Grimes is the discovery of the past five years and must be recognized as a star Westminster. Winner of last week's Victoria show will not be recognized as a star week's victoria week's in her own right.

First of all it is her voice that tugs you towards

First of all it is her voice that tugs you towards her. It is unlike any voice on the air today, possessing a magnetic quality difficult to define. It is soft yet it can belf, it is hard yet it is tremulous. Best of all, Command at Westover, Mass.

Miss Grimes' diction is so clear that each word in any given lyrics can easily be understood.

She has a flare for this sort of thing as well, a physical flare. As seen with Albert in such numbers as "Sunny Side Up," "Lullaby of Broadway," "Cheek to Cheek" and "Baby, It's Cold Outside" she provides a happy bounce, a flavor of sauciness that must warm the cockles of even the coldest viewer's heart.

Channel 5: James Stewart is heard narrating the rerun documentary, "Cowboy. Five Seven," about a typical day in the lives of men of the Strategic Air Command at Westover, Mass.

Channel 4: Pet Boone hosts musical comedy star Carol Lawrence.

Channel 7: Raymond Massey stars in Zane Grey's western, "The Secd of Evil."

the cockles of even the coldest viewer's heart.

In addition to Miss Grimes "Hollywood Sings" was a solid show of its kind, doing credit to choreographer James Starbuck and his enchanting dancers and to musical director Franz Allers. And I Unought that the versatile veteran Albert showed up as a singer amazingly well. Certainly he was well cast as a partner for Miss Grimes.

AS FOR "ALAS, BABYLON" I regret very much having had to miss it. As a matter of truth I have heard more comments both pro and con about this Playhouse 90 vehicle than I have ever heard before about any offering by this august series.

about any offering by this august series.

Was this because of the theme of the play, human-reaction to a nuclear war? Or was it in part occasioned by the fact that so many had tuned in at 8 o'clock expecting Ed Sullivan and once the play started they

couldn't tear themselves away?

No matter. My only hope is that it will be repeated this summer in order that I and my house will be able to see it too.

IRON & METALS The Greatest Need Is Love therapy and love must be taught to parents and children in needy countries.

The problem of the world today was not only the problem of the child in the refugee camp, it was the problem of the child of divorced parents, the unwanted child, the child in socially maladjusted homes and the children in badly run institutions.

TORONTO (CP)—The world's needy children are not only underfed and underclothed but are underloved, a child welfare expert told the 13th annual meeting of the Canadian Save the Children Fund today.

Pr. Dan Mulock-Houwer of Geneva, director-general of the International Union for Child Wel-fare, pleaded for adult education which would help families to stay together.

The Dutch doctor said it is essential to keep

the children with their families rather than place

them in public institutions.
"It is essential that the normal structure of the family, the customs of the country and the tribal systems remain the same," he said. Sound fundamentals of nourishment, playhelped so that they too will find purpose and reasons during their formative years, Dr. Mulock-Houwer added, He advised intensive birth control as a partial

TO PRINCESS' WEDDING

An invitation to attend the May 6 wedding of Princess Margaret and Antony Armstrong-Jones at Westminster Abbey arrived at Victoria's Government House this morn-

Ris Honor Frank MacKenzie Ross, Lieutenant-Gover-of British Columbia, and Mrs. Ross will leave April 23 to attend the wedding. They will be accompanied by Miss Ruth McLean, Mrx.

secretary.

Mrs. Ross told the Times that the much-cherished invitation was "very beautiful."

Invitations totalling 2,047 were mailed out to leading world figures from London this week.

Mr. and Mrs. Ross were hosts to Princess Margaret during her centennial visit in July, 1958. B.C.'s vice-regal representatives were generally conceded to have put on a hrilliant reception for the Princess, which resulted in a fast friendship.

African Negroes Losing Faith

NEW YORK (AP)-Billy Graham says that African Negroes until now have not been widely aware that racial segregation exists in American churches—but they're finding out, and it's dealing a hard blow to the Christian cause.

This is among the major conclusions that the globe-frotting evangelist drew from his 10-week African tour from which he returned last week.

Outlining his impressions in an interview, he said the foes of Christianity are busy picturing at as a "white man's religion."

"This is Christianity's biggest stumbling block in Africa," he said—and the damage, he added, is only beginning."

EMBARRASSING

'The embarrassing racial problem in America and Britain has not been such an obstacle among Africans until now because they were not so aware of it. But it's

becoming increasingly a problem there.
"The segregated churches and church institutions in America are becoming known to African leaders. They can't believe it. They can't take it in. They're astounded to hear that Christian institutions bar a man on the basis of color."

BILLY GRAHAM . . . christianity hurt who refuses to hold any meetings where segregation is required, said the African trip strengthened his conviction that Christianity must free itself of racial restrictions. restrictions.

"Eventually the churches are going to have to drop it . . . Ninety per cent of all our churches are segregated."

WHITES OUTNUMBERED

If American churches are to render effective missionary help in Africa "they're going to have to rethink their own segregation policies . . . they've got to realize that 70 per cent of the world is colored."

In Africa he held meetings in 25 major cities and 75 villages in 12 countries across the continent, and "I did more and saw more than on any other tour."

"More and more Christian leadership is being turned over to the Africans them-selves. It's not missionary policy that counts any more, but African policy.

"Nearly all Anglican bishops there are Africans ... the Catholic church in naming an African cardinal made a wise move." As for the quality of Negro pastors and church leaders, Graham said: "They are terrific. They are men who would be leaders anywhere."

. . HERE AND THERE . . . With NORMAN CRIBBENS

It's fantastic and incredible but I have just received legacy from someone I can't remember.

A lawyer's letter from London, England, informed

ne that a Miss F. R. M. France had died and left property and funds valued at about \$6,100.

This almost ended my life "here below" until I got down to the third paragraph which stated that Miss France had bequeather a "considerable number" of legacies including one of \$25 for myself.

"However," the legal gentlemen warned, "after pay-ments for debts, funeral and testamentary expenses have been paid, you may expect to receive something less than that amount." 2 might have known!

One of our lusty old-timers is military man, of course) fairly snorted when I told him Premier Bennets had said Victorians didn't app eciate Beacon Hill Park as much as they should.

Smoothing down his bristling moustache, the veteran "I was appreciating Beacon Hill Park when Premier Bennett was nothing more than a rumor."

Those who remember Alec Templeion, the lively "unsighted" planist who played here a few years ago, will not be surprised to hear that he has produced a book

There are literally hundreds of these boxes in his spacious home at Greenwich, Connecticut, in addition to 17 chiming clocks, doors which play tunes when opened and a whisky decanter that sings "Bon't Touch Me."

Templeton confides that when he met a friend in New York and asked him home he replied:

"Alec, I love your company but frankly I can't stand all those damn belis!"

Today 1 met a proud Victoria father who told me he and his three sons have contributed a total of 101 years in military service.

William Walker of 923 Esquimait Road served 32 years with the British Imperial and the Canadian armies during the First and Second World Wars.

His eldest son, Major Alee William Walker, now in
